PLAYER PROFILE

Scout assessment / 10 - benchmark: Eerste Divisie level

ROLE & FIT

BEST ROLE

Left winger / creative wide midfielder

Right-footed creator who can drift inside and receive between the lines.

SYSTEM FIT

4-3-3 / 4-2-3-1

Best from the left with freedom to move inside; can also play No.10 or right wing.

CURRENT LEVEL

Emerging Eerste Divisie starter

First senior season; already showing technical quality but not yet sustaining 90 minutes.

SCOUTING REPORT

TECHNICAL

8.5 / 10

Elegant and subtle on the ball. Excellent first touch, close control, combination play and through passing. Comfortable receiving in tight areas and capable of delivering quality crosses or disguised final passes.

PHYSICAL

6.5 / 10

Agile with very good balance, but neither especially quick nor powerful. Handles contact through technique more than strength and currently struggles to sustain Eerste Divisie intensity for 90 minutes.

PROJECTION

Eredivisie

Clear top-flight potential if physical development and consistency continue.

TACTICAL

8.2 / 10

Very effective between the lines and in reduced spaces. Arrives in the box regularly, combines intelligently and can operate from either flank or centrally. Pressing is willing rather than dominant.

PSYCH / SOCIAL

8.5 / 10

Plays with unusual calmness and confidence for his first senior season. Brave in possession, keeps demanding the ball after mistakes and shows composure in high-pressure finishing situations.

SCOUT'S NOTE

Veldhuis stands out for the calmness and elegance of his game. In his first professional season he already looks comfortable receiving between lines, combining in tight areas and deciding actions with his right foot. He has creativity, vision and real technical subtlety, but his physical development is still behind his football intelligence: he is not explosive, can fade after 60-70 minutes and is not yet a disciplined defensive winger. The technical ceiling is clear; the next step is proving he can sustain his influence over full senior matches.
