ROLE & FIT

BEST ROLE

Inverted right winger / inside forward

Left-footed wide attacker who can isolate, carry at speed and create inside.

SYSTEM FIT

4-3-3 / 4-2-3-1 / 3-4-2-1

Best from the right with freedom to move inside and combine.

CURRENT LEVEL

Senior top-flight / Flamengo first-team level

Already productive in Belgium and now adapting to a major South American club.

PROJECTION

Premier League / LaLiga / Top-5 Europe

Elite-upside wide attacker if availability and physical consistency hold.

SCOUTING REPORT

TECHNICAL

8.9 / 10

Exceptional close control and a high-level left foot. Carries the ball tightly at pace, can beat defenders off either side and combines cleanly in crowded areas. Final execution is already strong.

TACTICAL

8.7 / 10

Reads attacking situations well and is comfortable moving from the right touchline into interior pockets. Combines quickly, attacks space after releasing the ball and shows potential as a secondary creator.

PHYSICAL

8.2 / 10

Explosive first steps and good speed over distance. Can repeatedly attack defenders but is lighter in contact and can fade physically. Injury history is an important consideration.

PSYCH / SOCIAL

8.8 / 10

Plays with major confidence and personality. Willing to decide high-pressure actions, keeps attacking after setbacks and shows competitive courage in decisive moments.

SCOUT'S NOTE

Valencia is a high-ceiling left-footed right winger with the technical quality and explosiveness to decide games. His close control, acceleration and ability to combine from wider or more interior positions give him several attacking solutions. His bravery in decisive moments stands out. The main risks are availability, fatigue and a lighter physical profile; attacking-duel efficiency can also improve. If he stays healthy and sustains his output, his ceiling is Premier League / LaLiga level.

02

INTERIOR CONTROL & CREATION
